Chang Min Park

University at Buffalo, The State University of New York
cpark22@buffalo.edu • +1 (716) 598-7331 • http://www.beyondthegeek.com/

INTERESTS

Systems Challenges in Mobile Systems, Automated Software Analysis, and UI Testing.

TECHNICAL SKILLS

Android Internals and App Development, Bytecode Instrumentation Tools (Soot), Firebase Realtime Database, Java, Python, C++, and Linux OS

EDUCATION

University at Buffalo, The State University of New York

- Ph.D. in Computer Science and Engineering — Aug '17 – Present
  - Advisor: Prof. Steven Y. Ko
  - Focus: Systems Challenges in Mobile Computing
- B.S. in Computer Science — Aug '11 – May '17
  - Magna Cum Laude
  - Jun '13 – Mar '15: Served Military Service in Republic of Korea

Yonsei University, Republic of Korea

- SUNY Study Abroad Program — Summer '12

Relevant Courses: Advanced Computer Systems, Advanced Programming Languages, Operating Systems, Realtime Embedded Systems, Modern Network Concepts, Data Intensive Computing, and Computer Security.

RESEARCH OVERVIEW

Through my undergraduate and graduate studies, my research has focused on mobile systems.

- **Gesto** [EICS '19, PACM-HCI] is a system that enables task automation for Android apps using gestures and voice commands. Using this system, a user can record a UI action sequence for an app, choose a gesture or a voice command to activate the UI action sequence, and later trigger the UI action sequence by the corresponding gesture/voice command.
  Link: http://beyondthegeek.com/portfolio/gesto-eics-19/
- **Reptor** [MobiSys '17] enables open innovation in mobile platforms. Our technique allows third-party developers to modify, instrument, or extend platform API calls and deploy their modifications seamlessly. The uniqueness of our technique is that it enables modifications completely at the app layer without requiring any platform-level changes.
  Link: http://reptor.cse.buffalo.edu/
- **Mimic** [ICSE '19] is an automated UI compatibility testing system for Android apps. Mimic is designed specifically for comparing the UI behavior of an app across different devices, different Android versions, and different app versions.

RESEARCH EXPERIENCE

University at Buffalo, The State University of New York

- Ph.D. Research Assistant, RMS Lab — Aug '18 – Present
  - Project: Mapping UI Events to Gestures and Voice, and Automated Testing of Mobile Devices.
- Undergraduate Research Assistant, RMS Lab — May '16 – Aug '17
  - Project: Android Platform API Virtualization

TEACHING EXPERIENCE

University at Buffalo, The State University of New York

- CSE421/521: Operating Systems — Aug '17 – May '18
  - Design and Implementation of Operating Systems
  - Project: Pintos Programming

PUBLICATIONS

PUBLISHED

HONORS & AWARDS

- UB SEAS Dean's Fellowship — 2017 – 2018
  For exceptional graduate students who have potential for an outstanding graduate career.
- CSE Undergraduate Award for Research, University at Buffalo — May 2017
  Awarded to one graduating senior who has done exceptional research with a UB CSE faculty.
- Dean's List, University at Buffalo — 2012

ACTIVITIES

Tau Beta Pi Engineering Honor Society, University at Buffalo

- Member — 2016 – 2017
