INTERESTS	Systems Challenges in Mobile Systems, Automated Software Analysis, and UI Testing.	
TECHNICAL SKILLS	Android Internals and App Development, Bytecode Instrumentation Tools (Soot), Firebase Realtime Database, Java, Python, C++, and Linux OS	
EDUCATION	University at Buffalo , The State University of New York	
	<ul style="list-style-type: none">■ Ph.D. in Computer Science and Engineering Aug '17 – Present<ul style="list-style-type: none">• Advisor: Prof. Steven Y. Ko• Focus: Systems Challenges in Mobile Computing■ B.S. in Computer Science Aug '11 – May '17<ul style="list-style-type: none">• Magna Cum Laude• Jun '13 – Mar '15: Served Military Service in Republic of Korea	
	Yonsei University , Republic of Korea	
	<ul style="list-style-type: none">■ SUNY Study Abroad Program Summer '12	
	Relevant Courses: Advanced Computer Systems, Advanced Programming Languages, Operating Systems, Realtime Embedded Systems, Modern Network Concepts, Data Intensive Computing, and Computer Security.	
RESEARCH OVERVIEW	Through my undergraduate and graduate studies, my research has focused on mobile systems. <ul style="list-style-type: none">■ Gesto [EICS '19, PACM-HCI] is a system that enables task automation for Android apps using gestures and voice commands. Using this system, a user can record a UI action sequence for an app, choose a gesture or a voice command to activate the UI action sequence, and later trigger the UI action sequence by the corresponding gesture/voice command. Link: http://beyondthegeek.com/portfolio/gesto-eics-19/■ Reptor [MobiSys '17] enables open innovation in mobile platforms. Our technique allows third-party developers to modify, instrument, or extend platform API calls and deploy their modifications seamlessly. The uniqueness of our technique is that it enables modifications completely at the app layer without requiring any platform-level changes. Link: http://reptor.cse.buffalo.edu/■ Mimic [Under submission] is an automated UI compatibility testing system for Android apps. Mimic is designed specifically for comparing the UI behavior of an app across different devices, different Android versions, and different app versions.	
RESEARCH EXPERIENCE	University at Buffalo , The State University of New York	
	<ul style="list-style-type: none">■ Ph.D. Research Assistant, RMS Lab Aug '18 – Present<ul style="list-style-type: none">• Project: Mapping UI Events to Gestures and Voice, and Automated Testing of Mobile Devices.■ Undergraduate Research Assistant, RMS Lab May '16 – Aug '17<ul style="list-style-type: none">• Project: Android Platform API Virtualization	
TEACHING EXPERIENCE	University at Buffalo , The State University of New York	
	<ul style="list-style-type: none">■ CSE421/521: Operating Systems Aug '17 – May '18<ul style="list-style-type: none">• Design and Implementation of Operating Systems• Project: Pintos Programming

POSTERS AND DEMOS

POSTERS

- [1] Chang Min Park, Taeyeon Ki, Ali Ben Ali, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Enabling Dynamic Gesture Mapping with UI Events” in *UB Graduate Research Conference and Alumni Symposium Sep 2017*.

DEMOS

- [1] Chang Min Park, Taeyeon Ki, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Demo: Enabling Dynamic Gesture Mapping with UI Events” in *Proceedings of the 15th Annual International Conference on Mobile Systems (MobiSys) Jun 2017*.
- [2] Taeyeon Ki, Alexander Simeonov, Chang Min Park, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Demo: Reptor: Enabling API Virtualization on Android for Platform Openness” in *Proceedings of the 15th Annual International Conference on Mobile Systems (MobiSys) Jun 2017*.
- [3] Taeyeon Ki, Alexander Simeonov, Chang Min Park, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Demo: Fully Automated UI Testing System for Large-scale Android Apps Using Multiple Devices” in *Proceedings of the 15th Annual International Conference on Mobile Systems (MobiSys) Jun 2017*.

HONORS & AWARDS

- UB SEAS Dean’s Fellowship 2017 – 2018
For exceptional graduate students who have potential for an outstanding graduate career.
- CSE Undergraduate Award for Research, University at Buffalo May 2017
Awarded to one graduating senior who has done exceptional research with a UB CSE faculty.
- Dean’s List, University at Buffalo 2012

ACTIVITIES

- Tau Beta Pi Engineering Honor Society**, University at Buffalo
- Member 2016 – 2017
