|                     |   |  |
|---------------------|---|--|
| INTERESTS           | Secured Image Display using Trusted Execution Environment (TEE), Systems Challenges in Mobile Systems, Automated Software Analysis, and UI Testing.   |  |
| TECHNICAL SKILLS    | ARM TrustZone, Android Internals and App Development, Bytecode Instrumentation Tools (Soot), Firebase Realtime Database, AWS EC2/RDS, Java, Python, C, and Linux OS   |  |
| EDUCATION           | <b>University at Buffalo</b> , The State University of New York   |  |
|                     | <ul style="list-style-type: none"><li>Ph.D. in Computer Science and Engineering <span>Aug '17 – Present</span><ul style="list-style-type: none"><li>Advisor: Prof. Steven Y. Ko</li><li>Focus: Systems Challenges in Mobile Computing</li></ul></li><li>B.S. in Computer Science <span>Aug '11 – May '17</span><ul style="list-style-type: none"><li>Magna Cum Laude</li><li>Summer '12: Study Abroad Program at Yonsei University in Republic of Korea</li><li>Jun '13 – Mar '15: Served Military Service in Republic of Korea</li></ul></li></ul>   |  |
|                     | <b>Relevant Courses:</b> Advanced Computer Systems, Advanced Programming Languages, Operating Systems, Distributed Systems, Realtime Embedded Systems, Modern Network Concepts, Data Intensive Computing, Computer Security, Algorithms Analysis & Design, VLSI Electronics, and Theory of Computation.   |  |
| RESEARCH OVERVIEW   | Through my undergraduate and graduate studies, my research has focused on mobile systems. <ul style="list-style-type: none"><li><b>Rushmore</b> [MobiSys '21] is a system that securely displays static or animated images using ARM TrustZone. The core functionality of Rushmore is to securely decrypt and display encrypted images from a trusted party on a mobile device. By leveraging IPU's multiple display channels and a fast stream cipher called ChaCha20, the system provides frame rates around or higher than 30 FPS for displaying encrypted animated images. Rushmore also enables a novel application of visual cryptography.</li><li><b>Gesto</b> [EICS '19, PACM-HCI, Best Paper Honorable Mention] is a system that enables task automation for Android apps using gestures and voice commands. Using this system, a user can record a UI action sequence for an app, choose a gesture or a voice command to activate the UI action sequence, and later trigger the UI action sequence by the corresponding gesture/voice command.<br/><b>Link:</b> <a href="http://beyondthegreek.com/portfolio/gesto-eics-19/">http://beyondthegreek.com/portfolio/gesto-eics-19/</a></li><li><b>Mimic</b> [ICSE '19] is an automated UI compatibility testing system for Android apps. Mimic is designed specifically for comparing the UI behavior of an app across different devices, different Android versions, and different app versions.<br/><b>Link:</b> <a href="http://beyondthegreek.com/portfolio/mimic-icse-19/">http://beyondthegreek.com/portfolio/mimic-icse-19/</a></li><li><b>Reptor</b> [MobiSys '17] enables open innovation in mobile platforms. Our technique allows third-party developers to modify, instrument, or extend platform API calls and deploy their modifications seamlessly. The uniqueness of our technique is that it enables modifications completely at the app layer without requiring any platform-level changes.<br/><b>Link:</b> <a href="http://reptor.cse.buffalo.edu/">http://reptor.cse.buffalo.edu/</a></li></ul> |  |
| RESEARCH EXPERIENCE | <b>University at Buffalo</b> , The State University of New York <ul style="list-style-type: none"><li>Ph.D. Research Assistant, RMS Lab <span>Aug '18 – Present</span></li><li>Undergraduate Research Assistant, RMS Lab <span>May '16 – Aug '17</span></li></ul>   |  |
| TEACHING EXPERIENCE | <b>University at Buffalo</b> , The State University of New York <ul style="list-style-type: none"><li>CSE486/586: Distributed Systems <span>Jan '20 – May '21</span></li><li>CSE421/521: Operating Systems <span>Aug '17 – May '18</span></li></ul>   |  |
| WORK EXPERIENCE     | <b>Breeding Corporation</b> , South Korea <ul style="list-style-type: none"><li>Co-Founder &amp; CTO <span>May '20 – Jul '21</span></li><li>The first platform service connecting dog owners and trainers with a video call</li><li>Designed an app architecture and a business model</li></ul>   |  |

## PUBLICATIONS

### PUBLISHED

## POSTERS AND DEMOS

### POSTERS

- [1] Harishankar Vishwanathan, Chang Min Park, Sidharth Kumar Mishra, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek “Poster: Partitioning Garbage Collection Between the Secure and Normal Worlds for Trusted Applications” in *Proceedings of the 17th Annual International Conference on Mobile Systems (MobiSys)* Jun 2019.
- [2] Chang Min Park, Taeyeon Ki, Ali Ben Ali, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Enabling Dynamic Gesture Mapping with UI Events” in *UB Graduate Research Conference and Alumni Symposium* Sep 2017.

### DEMOS

- [1] Chang Min Park, Taeyeon Ki, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Demo: Enabling Dynamic Gesture Mapping with UI Events” in *Proceedings of the 15th Annual International Conference on Mobile Systems (MobiSys)* Jun 2017.
- [2] Taeyeon Ki, Alexander Simeonov, Chang Min Park, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Demo: Reptor: Enabling API Virtualization on Android for Platform Openness” in *Proceedings of the 15th Annual International Conference on Mobile Systems (MobiSys)* Jun 2017.
- [3] Taeyeon Ki, Alexander Simeonov, Chang Min Park, Karthik Dantu, Steven Y. Ko, and Lukasz Ziarek, “Demo: Fully Automated UI Testing System for Large-scale Android Apps Using Multiple Devices” in *Proceedings of the 15th Annual International Conference on Mobile Systems (MobiSys)* Jun 2017.

## AWARDS & GRANTS

- |   |          |
|---|----------|
| ▪ Excellence Award with \$80,000 Grant in K-Startup (ChungChung) Contest<br><i>Ministry of SMEs and Startups in South Korea</i>             | Nov 2020 |
| ▪ Top Award in Youth Startup Awards<br><i>Youth and Future Corporation in South Korea</i>   | Oct 2020 |
| ▪ Pre-Startup Package with \$50,000 Grant<br><i>Ministry of SMEs and Startups in South Korea</i>  | Sep 2020 |
| ▪ Second Place in CSE PhD Poster Competition, University at Buffalo   | Dec 2019 |
| ▪ Best Paper Honorable Mention Award<br><i>Proceedings of 11th ACM SIGCHI Symposium on Engineering Interactive Computing Systems (EICS)</i> | Jun 2019 |
| ▪ SEAS Dean’s Fellowship, University at Buffalo   | 2017     |
| ▪ CSE Undergraduate Award for Research, University at Buffalo   | May 2017 |
| ▪ Dean’s List, University at Buffalo  | 2012     |
